Danger Ahead! Look Out!!

Colds and gripe frequently will leave you with weak kidneys, and aching back. The kidneys get overworked fighting off a cold or a contagious disease. When they slow up, and don't perform their duties, look out, there is trouble brewing.

Kidney and bladder troubles are dangerous, and should not be neglected; if you are compelled to arise from your slumber once or twice during the night, it proves that your kidneys are affected and bladder irritated, and if you will take from 10 to 20 drops of SEVEN BARKS in a little water after meals, you will correct the alkalinity of your secretions, thus giving you undisturbed sleep and peaceful rest, preparing you for your next day's duties.

If you feel dull, irritable and nervous, have headaches, sore or enlarged joints, irregular kidney action, you should give the kidneys quick relief by taking SEVEN BARKS, which will not only relieve the kidney trouble, but keep your stomach in good condition and your liver active.

Don't neglect your kidney trouble with first symptoms. You will be sorry if you do—it's too serious a matter. Get SEVEN BARKS of your druggist. Price, 50 cents.—Adv.
